

School Life

Pre-Session Preparations

- Prepare a story about an interesting incident that happened at school.
- Come up with 10 reasons why you think school is important for a student. And ask the student to come up with 5 reasons why they think school is important.
- Come up with a few changes that you think need to be implied to the current school education system.
- Be ready to share your screen and play this [video](#).

During Session

- Begin the session with an interesting and fun story about a incident or something great that happened during your schooling life.
- Ask the student if they have had a similar experience throughout their school life. Ask the student to tell you the story as descriptively as possible.
- Have a small discussion with your student about what school life meant to you and why you think school life is important for a person's growth.

- Discuss with the student their most favorite activities to do at school or events held by their school that they love to attend to. Ask them to describe one of those events. Tell the student about a few of the events that is/used to be held in your school. Discuss about the nature of the events and the excitement it brings to you by attending these events.
- Discuss about the nature of the daily school life, such as the activities that you perform when you go to school on a daily basis.
- Watch this [video](#) with your student. Talk about the impact of reading on a student's life and if you think lots of books is the best and most efficient way to educate someone.
- Talk about the academic and non-academic achievements that the student and the volunteer has achieved throughout your time in school. Talk about the importance of achievements and what advantages could participation in various things during school can be useful in the future.
- Discuss the 10 reasons that you have prepared and the 5 reasons the student has prepared. Make sure to go through each one thoroughly and find what other reasons could be there for school life to be important.

- Ask the student about what the education system at the schools in their country/region and discuss about the differences and similarities in the education system.
- Ask the student what they would change in their current education system if they got a chance to make changes to it. Ask them why they think those changes might be better and express your thoughts on their suggestions.
